

The following is a list of Arabic language professors in the US (more than 5,000), to whom a personal invitation to examine this site has been extended. Should there be any errors, we apologize in advance and invite interested parties to let us know so that they can be rectified. We also invite anyone who should be on this list to contact us so that we may add him/her as well.

The Schools are placed in each State according to: Top Universities first and importance of the faculty of Arabic, second.

The purpose of this list is to show the growing interest in the Arabic language across the US.
